Special Notes: Due to the continuing US outbreak of High Path Avian Influenza (HPAI), Animal Health Officials from all six New England States may recommend postponing competitions, exhibitions, shows, swaps, or other in-person events encouraging the gathering or comingling of domestic fowl or poultry. If events are held, best practices for biosecurity should be implemented.

In addition to complying with all laws and regulations governing animal health issues all fairs must adopt and enforce the following rules for governance of the fair:

NO animal will be admitted to the fairgrounds unless it meets the requirements below. NO animal is to be unloaded or enter a barn or tie-out stall until the animal and its paperwork have been inspected and approved for entry.

## A. General Rules for All Animals: See M.G.L. c. 128 §2C, 129 § 2

1. All animals must be in proper physical condition, be properly identified and free of visual evidence of infectious, contagious or parasitic disease at time of arrival. Specific diseases and conditions which will disqualify an animal for entry are identified for each species in the following sections of the rules. Animals of any species with open or draining wounds will not be approved for entry.
2. Evidence of infectious, contagious or parasitic disease or failure to produce the necessary documents for health certification, vaccination or testing will result in the animal's rejection for entry. THE INSPECTOR'S DECISION IS FINAL.
3. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only, and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
4. Official ID: See Final Rule: Summary of Traceability for Livestock Moved Interstate (Summary of general Requirements by Species)
All livestock must have proper official, individual ID as required for species, e.g. official metal ear tag, tattoo, scrapie tag, or microchip. Registration forms must accompany health certificates when used as part of official identification.

## 5. Health Certificates

One Official Certificate of Veterinary Inspection (OCVI) may be allowed for animals of the same species to be exhibited at fairs or shows in any of the New England states (CT, *ME, MA, ${ }^{* *} \mathrm{NH}, \mathrm{RI}$, and ${ }^{* * *} \mathrm{VT}$ ) when submitted with an itinerary of the dates and locations of the events at which the listed animals are expected to be shown. Only animals that are healthy at the time of shipment may be moved. Note that *ME, **NH, and ***VT have additional requirements. Certificates of veterinary inspection in these states are valid for a shorter period of time and may have additional language, movement and permit requirements.

For the 2023 Show and Fair Season, livestock animals being exhibited in New England states must have official certificates of veterinary inspection (OCVIs) that meet the following requirements:
a. MA, and RI: OCVIs issued on or after January 1, 2023 may be used for animals being shown at multiple fairs and shows in CT, MA, and RI through the 2023 fair season ending October 31.

## Directions:

1. Preheat the oven to 350 degrees F . Line a large baking sheet with parchment paper.
2. With an electric mixer, blend together all the ingredients until combined, smooth, and thick, 2-3 minutes.
3. Using a heaping tablespoon cookie scoop, form dough into $11 / 4$-inch balls with the palms of your hands.
4. Transfer to the prepared baking sheet 2 inches apart.
5. Press down with the back of a fork and then press again from the opposite direction, to form a criss-cross pattern on top.
6. Bake for about 10 minutes or until the tops are lightly brown and they are about 3 inches wide (all ovens run differently.) They will still be slightly soft if you press on them hot from the oven.
7. Remove from oven and let cool on the tray for 5 minutes, then transfer to a wire rack to cool completely and firm up.
